

Terms and Conditions (Australia & New Zealand)

New Outboards are eligible for the 3 + 2 Warranty

Mercury Marine is offering its new owners a two year bonus warranty on top of its existing three year factory warranty – to provide as total of 5 years protection on its full range of consumer Outboard products:¹

- 2-Stroke
- FourStroke
- OptiMax
- Verado

The bonus two years of warranty are factory-backed and give the same comprehensive warranty coverage as Mercury Marine's standard 3 year manufacturer's warranty (including labour) for failures caused by defect in material or workmanship. For full details of the warranty coverage and exclusions please refer to the factory warranty policy and conditions which are set out in your Operation and Maintenance Manual (see "Warranty Information") or log onto www.mercurymarine.com.au.

Provided that the Bonus Warranty Conditions have been met, the additional 2-year warranty becomes effective when the standard 3-year factory limited warranty expires. The bonus warranty will terminate upon failure to meet any of the Bonus Warranty Conditions.

Bonus Warranty Conditions:

- The Mercury Marine specified pre-delivery inspection process for the outboard must be completed and documented by your Dealer. Warranty coverage becomes available upon proper registration of the product by the Dealer.
- A Factory Authorised Mercury or Mariner Dealer² must perform the recommended routine servicing/maintenance requirements and repairs and log these with Mercury.
- The recommended service intervals and maintenance recommendations must be adhered to (3mth/20hr, 12mth/100hr, 2yr/200hr, 3yr/300hr, 4yr/400hr, 5yr/500hr).³
- Genuine Quicksilver parts, oils and lubes must be used.
- Services must be recorded in your logbook and registered on-line by your authorised dealer.⁴

Modification/Alteration:

Products that have been modified or altered from their original production configuration are not eligible for Mercury 3 + 2 Year Warranty. The addition of, or replacement with, parts or accessories not approved by Mercury Marine, or not installed by an Authorised Service Centre, will be cause for your Mercury Marine Outboard + 2-year warranty to be cancelled. This may also affect your rights under the 3 year standard factory warranty.

Eligible Products:

New Mercury & Mariner Outboards (other than non-eligible products) purchased after January 1, 2007, from a dealer authorised by Mercury Marine to distribute the product in Australia or New Zealand⁵ which are used solely for pleasure applications.

Non-Eligible Products and Uses:

Racing and Mercury Performance Products, regardless of length of warranty period. Products used by local, State, or Federal Government or volunteer agencies. Products used in any work, boat rental, time-share ownership or employment related use, or any use of the product, which generates income, for any part of the warranty period, even if the product is only occasionally used for such purposes.

Period of Coverage:

The Mercury additional 2 Year warranty coverage will commence once the product's standard limited warranty period (3 years) has expired. The total duration of the coverage will be five (5) years. Unexpired warranty coverage can be transferred to a subsequent purchaser upon proper re-registration of the product.

Additional Warranty Information and Conditions:

Additional information regarding your outboard's factory warranty policy and conditions can be found in your Operation and Maintenance Manual (see "Warranty Information").

1. Conditions and exclusions apply
2. To find your local Authorised Service Centre please refer to the dealer locator on our website www.mercurymarine.com.au
3. The recommended service interval is determined by either the period elapsed since date of purchase or, the number of engine running hours – whichever occurs first.
4. Log onto www.mercurymarine.com.au (Service & Warranty) to verify your 3+2 service history.
5. This warranty applies only to Mercury and Mariner outboards imported and distributed by Mercury Marine Australia Asia Pacific – Please check the Mercury website (www.mercurymarine.com.au) for more details on direct imports.

Recommended Service Intervals for Your Engine

It is important to follow a regular service interval period (eg once every 12 mths) because in many cases you may clock up less than 100hrs of running during a year. Most engines (cars, boats, lawn mowers, etc) are designed to be used regularly and many mechanical components will begin to deteriorate with lack of use.

To ensure your confidence in the reliability and durability of your engine, much of the recommended maintenance is designed to be preventative - instead of waiting for components to be worn out or close to failing, it makes much more sense to ensure your engine starts and runs reliably when you're ready to go boating.

The months/hours specified for service intervals are in relation to the engine purchase date and are recommended for:

- 3 mths** (from Purchase Date) or **20 hrs**
- 12 mths** (from Purchase Date) or **100 hrs**
- 2 yrs** (from Purchase Date) or **200 hrs**
- 3 yrs** (from Purchase Date) or **300 hrs**
- 4 yrs** (from Purchase Date) or **400 hrs**
- 5 yrs** (from Purchase Date) or **500 hrs**
